HERE TO MAKE YOU SMARTER: (From left) Connie D'Souza, Joash Pereira, Angad Nadkarni, Siddhesh Phatak and Yuvraj Surve

Angad Nadkarni and his team help students prepare for exams in the best possible way

EXAMIFY IS THE MAGIC WORD NOW

Joash Pereira and Siddhesh Phatak of the DAC August 2012 batch at VITA are the only two developers working on the webservice 'Examify' and they are mentored by Angad (CEO). The current version of the product is built by both of them. Siddhesh is a web developer who works on the data management and backend technologies. All the APIs are basically built by him. Joash works on the design - the front tech. of the App and the Mobile App.

[Examify](#) is a free app designed to enhance the exam preparation experience for students. Use your precious study-time best by staying exam-focused, solving only the most relevant questions. Each question you solve, shows you just how much you've leveled up.

Examify is designed to keep you motivated with social-stats, until you outperform your peers. Compare your time-management with the toppers, to see exactly where you've been missing out. Right now Examify is available for IIT-JEE Mains and Advance.

Currently they are being featured in many news media across the country.
